COST SHARE

A detailed estimate of the cash or in-kind cash value (basis of and nature, i.e., equipment, labor, facilities, cash, etc.) of all contributions/cost share of the project by each participant must be provided. Identify the source & amount of cost sharing proposed by the Applicant and each Participant and the total amount of cost share as a percent of the total cost of the project. Note that "cost-sharing" is not limited to cash investment. In-kind contributions (e.g., contribution of services or property; donated equipment, buildings or land; donated supplies; or unrecovered indirect costs) incurred as part of the project may be considered as all or part of the cost share. The "cost-sharing" definition is contained in 10 CFR 600.30, 600.101, 600.123, 600.224, 600.302, 600.313 and OMB Circular A-110. Funds from other Federal sources cannot be counted as Recipient cost share. Non-Federal sources include private, state or local Government, or any sources that were not originally derived from Federal funds.

Note: XYZ's \$50,000 in cost share is 47% of the XYZ project costs. Their \$50,000 cost share represents 5.83% of the ABC Corporation's 20% cost share for ABC's total project costs of \$857,285.

1. For each cost share contribution identified as an *in-kind* contribution, identify the items and describe how the value of the in-kind contribution was derived.

2. NOTE: You are reminded that firm funding commitments are expected and documentation of those commitments must be included in the application. Additionally, the impact of DOE's cost share to the viability of the project must be addressed, to include justification of the need for Federal Funds. See Funding Opportunity Announcement for details.

GENERAL NOTE: Fee or profit will not be paid to the recipients of financial assistance awards or Subrecipients. Additionally, foregone fee or profit by the applicant shall not be considered cost sharing under any resulting award. Reimbursement of actual costs will only include those costs that are allowable and allocable to the project as determined in accordance with the applicable cost principles prescribed in 10 CFR 600.127, 10 CFR 600.312 or 10 CFR 600.318.
